ECOJUSTICE: TURNING A CHAPTER ON ENVIRONMENTAL JUSTICE

STOP
ECOCIDE

NOW!

We're now more committed than ever to hold those responsible for severe environmental harm.

EcoJustice will call out on acts that are deemed "ecocidal" and strategically set the pathways to legal accountability.

Join us as we embark on this vital mission!

WHO WILL ANSWER FOR EARTH?

Mother Earth holds countless silent witnesses to actions against her, and while there are those who champion her rights, systemic silence prevails.

Damage is done, but responsibility remains. Who will be held accountable? The future will judge not by intentions, but by actions.

OUR VISION

SHIFTING FROM **EXPLOITATION** TO **SUSTAINABLE COEXISTENCE** THROUGH **LEGAL ACCOUNTABILITY** FOR **SEVERE ENVIRONMENTAL HARM**

Advocating for laws that recognise and protect the intrinsic value of all life on earth and hold those who harm it accountable.

We envision a world where future generations are guaranteed legal systems that prioritise the planet's well-being and ensure justice for environmental harm.

Where the emancipation of criminal law, amongst others, becomes a powerful force for ecological restoration and preservation, driven by the principle of accountability.

OUR MISSION

TO STRENGTHEN PROTECTION OF THE ENVIRONMENT THROUGH CRIMINAL LAW

We advocate for robust environmental frameworks that prioritise sustainable coexistence over exploitation.

We are committed to actively preventing severe environmental damage by utilising a broad range of legal instruments, looking first at accountability through criminal law.

OUR MISSION

TO STRENGTHEN PROTECTION OF THE ENVIRONMENT THROUGH CRIMINAL LAW

We ensure legal accountability for severe environmental damage by actively supporting the implementation and enforcement of (related environmental) policies and regulations across all jurisdictions.

We promote legal reform nationally, regionally and internationally to safeguard earth's protection from future harm.

OUR STRATEGIC APPROACH

Here's how we implement our mission through six interconnected strategic pillars:

LEGISLATIVE ADVOCACY

Championing new laws, including ecocide legislation (Core Value A)

LEGAL ENFORCEMENT

Ensuring strict enforcement of existing laws (Core Value A)

KNOWLEDGE DEVELOPMENT

Fostering research and expertise in environmental law (Core Values A and C)

PUBLIC ENGAGEMENT

Building broad support through campaigns and education (Core Value B)

COLLABORATIONS

Partnering with organisations nationally, regionally and internationally (Core Value C)

FUNDRAISING

Securing resources to expand our impact (Core Values A, B and C)

OUR COMMITMENT

We are committed to holding those who harm our planet accountable, through all legal means, with an emphasis on criminal law.

GENERATION ECOJUSTICE

Systemic legal change only happens when broad civil support demands it. Laws follow where people lead – when voices unite, pressure builds, and justice becomes inevitable.

Support our efforts to create legal frameworks that safeguard our planet for generations to come.
